VAC SURF TEAM FINISHES 26th IN CAPE HATTERAS SURF TOURNAMENT

(By Danny Noland – VAC Surf Team Captain)

This year's Cape Hatteras Angler Club Invitational Surf tournament was the 60th year of the event. It is billed as the world's largest surf tournament with 120 6-person teams participating. The VAC surf team represented the club for its 55 consecutive year in the tournament.

This year's team consisting of Buddy Noland, Danny Noland, Ryan Noland, Jeff Doughty, Ray Nuckols, and Kenny Dale. We finished in a tie for 26th place. With puppy drum being the best scoring fish, we managed to catch 3 during the third round, scoring 54 points. During this round, we had at least two missed strikes which, if they were puppy drum in the size we were catching, could have been the difference of finishing in the top 10 versus 26th place. That shows how close the scoring was this year as the bluefish were small and sea mullet not very plentiful.

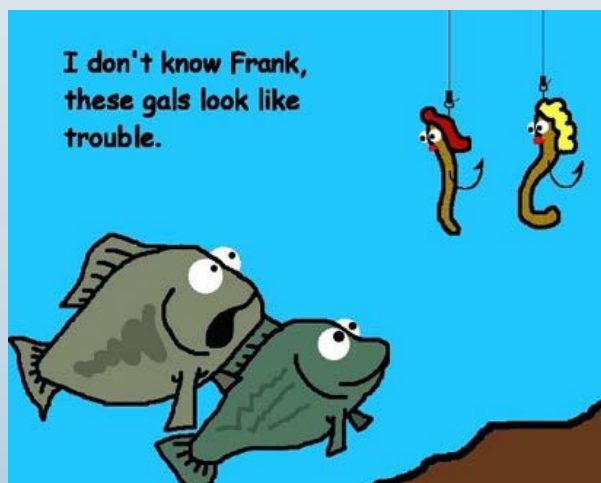

In years past, you always judged your success by where you finished compared to the "Outerbanks Sportfishers" team, which have won the tournament numerous times and is near the top of the scoreboard every year. This year they finished 57th, with the new team in town being "Team Advanced Fishing" winning for the second year in a row.

HUMOR FROM THE TACKLE BOX

“Catchy Comments”

By *Stuart Lee*

December 1st will mark the beginning of a new angling year for the Club. There are two angling rule changes that may be of interest to you. First, the use of pre-tested braid line will be accepted in all line classes the same as monofilament and dacron have been in the past. Presently, choices for pre-tested braid lines are very limited, and the only one that we are aware of is made by *Platypus*, which is an Australian company. Their pre-tested braid is considerably more expensive than other lines, but it will offer that option to members who are willing to pay for it. Other non-tested braid lines, available from other manufacturers, will still be acceptable in the Braid Division as long as the stated test does not exceed 20 pounds in freshwater and 50 pounds in saltwater.

The reason that we choose not to open up entry to all braid lines is because braids continue to greatly over test. A recent article from IGFA stated that most braids over test by 50% and some even more. The Angling Rules Committee felt that to accept all braid line would put those who choose to use non-braid lines at a big disadvantage and felt the acceptance of the pre-tested braid to be the best solution for now. I will add that this change will make the entry of the line manufacturer on your entry cards more important going forward. Please complete the line manufacturer on all entries.

The other change you will notice in the new version of Angling Rules (available on the VAC website in the member section) is the elimination of all references to club tournaments. The Board of Directors voted to discontinue all tournaments as participation and interest have continued to wane. Club outings, where members meet and fish an area together without any formal competition, have continued to grow in popularity and will be expanded to include some events that were covered by tournaments in the past. You may view this change any way you like, but it represents another step in the evolution of the club. Many members are not participating in tournaments but are participating in club outings so it was an easy decision for leadership to make.

JACOB NIXON

Jacob's introduction to angling was in farm ponds in West Virginia. Around 11 years old, Jacob moved on to fishing stocked trout streams with his dad and brother. Three years later, Jacob had a fly rod in his hands and it has been there ever since along with an occasional spin rod. Jacob likes fishing for predatory fish with articulated flies. Jacob is a Doctor of Audiology working at the Balance and Ear Center in Glen Allen, VA. Jacob devotes some of his spare time to volunteering with Project Healing Watters. He moved to the Richmond Area from Morgantown, WV in the spring of 2016.

BEN DARLING

Ben's current angling time is spent in freshwater. After graduating from the University of South Carolina, Ben worked at Sportsman's Warehouse and got hooked on fly fishing while working there. Ben will take up a spinning rod on occasion and fishes whenever he can. Ben is another new arrival to the Richmond, arriving here several months ago.

WILLIS THOMPSON

Willis is a local angler who grew up in Midlothian, VA. Willie's initial interest in fishing was picked up from his father. Willis started out as a bass angler and then moved on to all kinds of angling. Willis has a tandem ocean kayak and has caught a citation bass. HE graduated from Virginia Tech and is working for Dupont. Willis lives in the Fan in Richmond.

SUZANNE LUCAS

Suzanne was directed to the VAC by Member Robert Thomas. Suzanne is new to the sport of angling and has a strong desire to learn how to fish with a fly. If any Member would like to start her out in this enjoyable type of angling, please make yourself know to her. Suzanne lives in Glen Allen.

ROGER SCHULTZ

Roger is a seasoned fly fisherman having started fishing at around ages 6-7 in golf course ponds near his home. He still fishes these ponds today. In Ashville, NC, Roger found fly fishing and that has been his angling passion ever since. Since 2014, Roger embarked on annual fly fishing trips to Montana and the Bahamas. He favors fly fishing for Brook, Brown and Rainbow Trout. He has also caught such species as Yellowtail Snapper, Bonefish, Carp and Largemouth Bass. Roger lives in Richmond.

MASON SLAUGHTER

The VAC's newest new member, Mason is primarily a fly fisherman but has been known to pick up a surf rod on occasion. Catches reported on his Membership Application contain an even mix of saltwater fish and freshwater fish, the latter being primarily trout of various species. Mason was born in Richmond, attended Douglas Freeman High School and received his degree from the University of South Carolina. After working in Florida and Arkansas, Mason felt the pull of Richmond and move back "home". Mason is employed by Century Distribution Systems doing international logistical work.
